Skilled at acquiring FAA Airspace Authorizations

FilmFlight Aerials is a team of professional drone operators: pilots, gimbal operators and visual observers. We conduct training exercises and always fly training missions prior to any professional assignment.

SELECTED DRONE CREDITS:

Things Heard and Seen: Netflix: operated drone with a 3 person team for scenes of sailboats over the Hudson River and Long Island Sound; the film premiered April 29, 2021.

HBO Sports: Operated drone with a 3 person team for TIGER, a new HBO documentary about Tiger Woods.

Radioactive: independent documentary about the Three Mile Island nuclear power plant accident. Flew drone aerial missions near the plant as well as from nearby farms.

American River: feature length history/natural history documentary in New Jersey. Director: Scott Morris. Operated drones as a 2 person unit, flew near several airports with authorization. We utilized DJI Inspire 2 for most flights. Flights in tight spaces were accomplished with DJI Mavic 2 Pro.

A&E: Unidentified: I operated the DJI Inspire 2, filming a night operation of a drone swarm light show.

Perfect Place: drone aerials for an indie doc about an activist for chemical free landscaping in Eastern Long Island. The first shoot: 2020. Cummings Brothers Films. John Foster, DP.

Earth's Call: Aspen Colorado: Drone shots, before live concert, establishing the dramatic landscape surrounding the beautiful venue in Aspen. I also operated robo cam during show, Service Vision remote head and controls. Director: Scott Lochmus, May 2019.

Volvo Group: Aerials of cranes being demonstrated, with people in a personnel cage at 100'. Worked with a Swedish film crew and New York Action Unit for a Volvo web video, Feb. 2022.

Accurate Box Co: I operated a Mavic 2 Pro inside the box factory for a promo video.

Mahler's Titan: DP on documentary including period dramatizations of Mahler's early life. I operated drone in NY's Harriman State Park; DJI Inspire 2.

The Heart Stays: Native American feature. I filmed drone shots over the Hudson River.

Annie Mae Aquash Documentary: Drone filming over Long Island Sound for this feature doc in progress about a Native American woman activist from the 1970's. Yvonne Russo, Director.

Independent documentaries: I have also operated drone shots for a number of independent documentary productions, with scenics as well as following people and action.
